**Subject:** PRR 102 - NYISO Request for Revisions

All the NYISO requests the elimination of items 9 and 10 in PRR 102:

9. Other indices identified by the NYSRC for monitoring the *security* of the system.

*Same requirement as in present Measurement K-M2d.*

10. Additional analysis identified by the NYSRC associated with information provided in the monthly operations report.

*New requirement*

The rationale for elimination of these items is that they are not directly measurable for compliance and are already covered in the ISO NYSRC Agreement in the following sections:

2.3 The NYSRC shall have the authority to audit the ISO's implementation of the Reliability Rules and to assess the ISO's compliance with the Reliability Rules and this Agreement.

3.6 The ISO shall provide the NYSRC with such information, data, reports, and assistance as the NYSRC requires in carrying out its responsibilities.

3.9 The ISO shall perform studies that may be requested by the NYSRC.

Thanks
