

Request to Develop or Modify Reliability Rules (NYSRC Policy No. 1-4)

Submit request to raymond40@aol.com via the NYSRC site www.nysrc.org

Item	Response
1. Respondent	
Name	Installed Capacity Subcommittee
Organization	
Address	
Phone & Fax numbers	
Email address	
2. Title of proposed rule change & PRR No.	Special Case Resource Performance Data Reporting Requirements (PRR 109)
3. New rule or modification of NYSRC RR?	
If a new rule is proposed, provide any relevant citation to existing standards	
If a modification to an existing rule is proposed, provide NYSRC RR reference	
4. Wording of proposed rule change	Reliability Rule C-R2 Name: Generating Unit <u>and Demand Side Resource</u> Availability Accurate generating unit <u>and demand side resource</u> outage data needed to analyze and model the reliability of the NYCA shall be collected and maintained.
5. Rationale for proposed rule change	
Identify advantages	The proposed Reliability Rule change and related measurements will assure that the NYISO provides the NYSRC the data that is needed to accurately assess the likely load reduction that will be provided by Special Case Resources at the time of an event. This will enable the NYSRC to more accurately incorporate this information into its Installed Reserve Margin analysis.
Identify disadvantages	

<p>6. Measurement(s)</p>	<p><u>Measurement C-M14 (New)</u></p> <p>The NYISO shall establish, maintain and follow procedures to address Installed Capacity Provider reporting requirements for submitting performance data for all demand side resources utilized for providing installed capacity associated with Special Case Resources (SCRs), and requirements for processing SCR performance data. These procedures shall be designed to provide complete, consistent and accurate data to support NYSRC and NYISO reliability studies. NYISO outage data reporting and processing procedures shall include the following requirements:</p> <ol style="list-style-type: none"> 1. Installed Capacity Provider SCR performance data reporting instructions. These instructions shall include requirements that Installed Capacity Providers submit data for any SCR test or event during which the SCR was called to perform. The data to be reported shall be in accordance with NYSRC Policy 5 guidelines. 2. Installed Capacity Provider SCR performance data reporting schedules. 3. NYISO procedures for processing SCR performance data received from Installed Capacity Providers. These procedures shall be designed to provide complete, consistent and accurate data. On request by the NYSRC, the NYISO shall make available for inspection documentation covering this process. 4. An annual report depicting SCR performance data, prepared in accordance with Requirement #3 and specified by the NYSRC. The report shall be submitted to the NYSRC in accordance with NYSRC time schedules. <p><u>Measurement C-M15 (New)</u></p> <p>Installed Capacity Providers located in or serving the NYCA shall provide performance data for their Special Case Resources (SCRs) in accordance with Measurement C-M14 and NYISO procedures, tariffs and schedules for reporting outage data to the NYISO.</p>
<p>7A. Full – Compliance Statement – <u>C-M14</u></p>	<p>The NYISO shall have documentation of its Installed Capacity Provider SCR performance data reporting instructions (Requirements 1 and 2) and SCR performance data processing procedures (Requirement 3), as specified in Measurement C-M14. The NYISO shall annually prepare a report depicting SCR performance data – as specified by the NYSRC Installed Capacity Subcommittee – and submitted to the NYSRC in accordance with NYSRC time schedules (Requirement 4).</p>
<p>8. Levels of Non-Compliance – <u>C-M14</u></p>	
<p>Level 1</p>	<p>NYISO SRC performance data procedures were provided when requested, but were incomplete relative to Requirement 1, 2 or</p>

	3 as defined in C-M13; or a SCR performance data report for the previous Capability Period (Requirement 4) was provided, but did not follow ICS specifications.
Level 2	N.A.
Level 3	The required SCR performance data report for the previous Capability Period (Requirement 4) was not prepared.
Level 4	NYISO SCR performance data procedures in accordance with C-M13 Requirements 1, 2 and 3 were not prepared.
7B. Full Compliance Statement – C-M15	The NYISO certifies that, during the previous Capability Period all Installed Capacity Providers reported SCR performance data in accordance with applicable NYISO procedures, tariffs, and schedules.
8B. Levels of Non-Compliance – C-M15	
Level 1	The NYISO certified that an Installed Capacity Provider submitted SCR performance data in accordance with NYISO reporting instructions during previous Capability Period, but did not meet NYISO reporting schedules.
Level 2	The NYISO certified that an Installed Capacity Provider submitted SCR performance data during the previous Capability Period, but failed to submit the data in accordance with NYISO performance data reporting instructions.
Level 3	N.A.
Level 4	The NYISO certified that an Installed Capacity Provider failed to submit SCR performance data during the previous Capability Period.
9A. Compliance Documentation Reporting Entity - C-M14	NYISO
10A. Compliance Monitoring Entity/Entities - C-M14	RCMS
9B. Compliance Documentation Reporting Entity – C-M15	Installed Capacity Providers
10B. Compliance Monitoring Entity/Entities - C-M15	NYISO/RCMS
11. Implementation Plan	The NYISO shall prepare instructions and schedules for the submission of SCR performance data in accordance with C-M14 requirements within __days of adoption by the NYSRC Executive Committee. The NYISO shall begin collection of this data for the 2012-2013 Capability Year.
12. Comments	(1) SCR performance data reporting instructions required by C-M14, Requirement 1, shall be consistent with results of a NYISO SCR Study that is evaluating SCR resources. (2) Policy 5 must be modified by ICS to define SCR reporting instructions (see C-M14, Requirement 1).
13. Date Rule/Measurement Adopted	
14. PRR Revision Dates	9/27/11, 11/3/11, 11/14/11
