

**New York State Reliability Council - Installed Capacity Subcommittee**  
**Action Items List to Meeting 87**  
**[Fade out items denotes Action Item has been completed]**  
**[Bold dates denotes items that are behind schedule or due for the next meeting]**

No	Action Item	Responsible Individual(s)	Sched./Actual Comp. Dates
66-1	Collapse all EOPs and use only summer months and find out if LOLE is the same around 0.1 days/year. Partially completed.	Greg Drake/Greg Campoli	5-01-08
66-2	Con Edison and NYISO to automate the IRM/LCR curve calculation and perform the benchmarking.	Drake/Villalba	6-01-08
74-1	Draft a procedure to determine the treatment of external capacity. Mr. Custer to send ICAP Language to the ICS group	NYISO	<b>3/5/08</b>
77-2	Forecast Accuracy. Verify how far apart the year to year forecast shown in the Gold Book has been during the last 5 years.	Maniaci	1/1/08
78-1	Refine PJM East area model and interconnections with NYISO through IPSAC.	Bill Lamanna	6/1/08
84-1	GE to review the sensitivity analysis methodology used in the IRM study.	NYISO	<b>4/2/08</b>
84-2	Develop a scope of work for developing a forward looking IRM.	ICS	6/1/08
84-3	Policy 5 refinement to include using polynomials to determine the TAN 45.	ICS	6/1/08
84-4	Curt will call Peter Wong (ISONE) to propose a methodology similar to the one used by GE on the Upstate/Downstate study.	Curt	<b>4/2/08</b>
84-5	NYISO to contact Peter Carney for a presentation	NYISO	3/5/08
84-6	John Charlton to send the NYISO's Forward Capacity Market document proposal.	All	<b>3/20/08</b>
84-7	NYISO, NYSERDA and TOs to create a methodology that would determine what amount of wind generation should be included in the IRM studies.	All	6/1/08
85-1	Perform MARS runs without external capacity derates to determine if there is any impact in the NYCA LOLE.	NYISO	<b>4/2/08</b>
85-2	The NYISO to ask GE for a methodology enhancement to add wind units in the MARS database. – wind profile made by laws for the NYSERDA wind study.	NYISO	6/1/08
86-1	RPS Premiums for NYPA list of wind projects.	Han Huang	<b>4/30/08</b>
86-2	Total NYCA import Capability investigation.	NYISO	<b>4/30/08</b>

<b>No</b>	<b>Action Item</b>	<b>Responsible Individual(s)</b>	<b>Sched./Actual Comp. Dates</b>
86-3	Investigate the incremental or unsubscribe capacity from Ontario for the wheel from MISO.	NYISO	6/1/08
87-1	Investigate simultaneous import capability taken into account the availability of internal units.	Lamanna	<b>6/1/08</b>
87-2	Talk with paul Giogia and Rick Gonzales to see what changes should be made to the existing agreement with the NYISO. NYISO senior management for FCM.	Al Adams	<b>6/1/08</b>
87-3	Send comments about the sensitivity analysis change in the Policy 5	All	<b>5/2/08</b>
87-4	HEDD and RGGI impact	NYISO/Peter	<b>6/1/08</b>
