

NYISO Certification

Description:

NYSRC Reliability Rule Reference (No. and Name)

I.1: Verification Testing of Resource Capacity

NYSRC Requirement(s) for which compliance is being certified

R3. Owners of *resources* responsible for providing *ICAP* shall seasonally verify the *net dependable capacity* of their equipment and report these results to the *NYISO* in accordance with *NYISO* procedures and schedules as required in R1.

Compliance Monitoring Process

Compliance Monitoring Responsibility:

- **M2:** NYISO/ RCMS

Compliance Documentation Reporting Frequency:

- **M2:** Annually

Compliance Reporting Requirements:

- **M2:** NYISO Certification of GO Compliance

Measure No.

<input checked="" type="checkbox"/> Full Compliance	M2. The <i>NYISO</i> certified that all applicable <i>Generation Owners</i> responsible for providing <i>ICAP</i> verified the <i>net dependable capacity</i> of their equipment and reported these results to the <i>NYISO</i> as specified by <i>NYISO</i> procedures and schedules under R1, in accordance with R3.
---	---

Levels of Non-Compliance

___ Level 1	M2. The <i>NYISO</i> certified that one <i>Generation Owner</i> did not submit complete verified dependable net <i>capacity</i> test results to the <i>NYISO</i> as required by <i>NYISO</i> procedures and R3.
___ Level 2	M2. The <i>NYISO</i> certified that two <i>Generation Owners</i> did not submit complete verified dependable net <i>capacity</i> test results to the <i>NYISO</i> as required by <i>NYISO</i> procedures and R3.
___ Level 3	M2. The <i>NYISO</i> certified that three <i>Generation Owners</i> did not submit complete verified dependable net test results to the <i>NYISO</i> as required by <i>NYISO</i> procedures and R3.
___ Level 4	M2. The <i>NYISO</i> certified that four or more <i>Generation Owners</i> did not submit complete verified dependable net <i>capacity</i> test results to the <i>NYISO</i> as required by <i>NYISO</i> procedures and R3.

Reliability Rule I.1 Narrative (R3):

Section 4.2 of the Installed Capacity Manual requires that providers of ICAP test their equipment and report the results to the NYISO. Evidence of compliance with resource capacity requirements is available in the ICAP Automated Market software. NYISO certifies that all applicable generator owners verified their DMNC and reported the results to NYISO for the capability periods in question.
