9. Responsible Entity	NYISO
10. Compliance Monitoring Entity	RCMS
11. Implementation Plan	The NYISO's initial annual exception review shall be completed by June 1, 2008, with the results of that review transmitted to the NYSRC by July 1, 2008.
12. Comments	This new rule is required in order to implement the provisions of a new NYSRC Policy 1 procedure for reviewing exceptions to the NYSRC Reliability Rules. The scope of the review is to determine if an exception is still relevant, but not to question the original justification for the exception. In particular, Section 3.01 of the NRSRC Agreement states, "The NYSRC shall initially adopt those existing rules, policies and procedures of the NYPP that relate to or affect the reliability of the NYS Power System." This statement includes all pre-existing exceptions, all of which existed in some NYISO or TO procedures.
