Raj,

Max is no longer part of Transmission Planning. David Beckles is our SME on the subject.

As it relates to the Specification TP-7700-5; that is the latest approved version of the spec. The procedure is being revised due to the retirement of Astoria GTs.

Max,

Is the procedure "TP-7700-5 Blackstart Evaluation Methodology (Dated December 15, 2020)" the latest procedure for ConEd's identification of Eligible Black Start Resources? If, not could you please provide me with the updated procedure?

Thank you,
