

PROPOSED RE-ORGANIZATION OF ICS DOCUMENT POSTINGS ON NYSRC WEB SITE¹

- 1. NYCA IRM REPORTS** – *Link to annual IRM reports, starting with the 2000-01 IRM report (these reports are currently on the web site).*

- 2. BASE CASE AND FINAL IRMS** – *This will be an historical list of IRMs and LCRs from 2000-01 to the present. (This table is similar to one currently in the IRM report).*

- 3. IRM MODEL WHITE PAPERS** – *Link to various white papers. This will include the “MARS Transition Rate Methodology” paper which will be relocated from Policy 5, as well as white papers in past IRM report appendices and other sources. Only white papers describing models used in current IRM studies will be posted.²*

- 4. NYISO LCR REPORTS** – *Link to a section of the NYISO web site showing annual LCR reports, starting with the 2005-06 LCR report.*

- 5. MISC. DOCUMENTS**

¹ Several outdated ICS documents presently on the web site will be removed.

² The following white papers will be considered for inclusion:

1. Load Shape – 2014 IRM reports on modeling multiple load shapes
2. Wind – 2010 IRM reports on the UCAP of wind and its impact, 2014 IRM report contains an evaluation of wind modeling by using actual NYISO wind data. A 2016 white paper resulted in multiple wind shapes being used and selected randomly.
3. EOPs
4. EFORD – 2013 contains EFORD white paper and Policy 5 has it as well.
5. LFU 2009 IRM report references special LFU study to be conducted in 2009 but not referenced in 2010
6. ICAP to UCAP translation – 2013 IRM report
7. EA limit
8. PJM .14 issue
