

# NYISO Self-Certification

**Description:**

**NYSRC Reliability Rule Reference (No. and Name)**

**I.3: Load Forecasting**

**NYSRC Requirement(s) for which compliance is being self-certified**

**R1.** The *NYISO* shall have documentation identifying the scope and details of the actual and forecast (a) *demand* data and (b) net energy for *load* data to be reported for system modeling and *reliability* analyses. The documentation of the scope and details of the data reporting requirements shall be available to the *NYSRC* on request.

**Compliance Monitoring Process**

**Compliance Monitoring Responsibility:**

- M2: RCMS

**Compliance Documentation Reporting Frequency:**

- M2: Annually

**Compliance Reporting Requirements:**

- M2: Aggregated actual and forecast demand and net energy for *load* data was provided when requested.

**Measure No.**

<input checked="" type="checkbox"/> Full Compliance	<b>M2.</b> Aggregated actual and forecast demand and net energy for <i>load</i> data was provided when requested in accordance with R2.
---	---

**Levels of Non-Compliance**

___ Level 1	M2. Not applicable.
___ Level 2	M2. Actual and forecast demand and energy data was not provided when requested in one or more of the areas as required by R2.
___ Level 3	M2. Not applicable.
___ Level 4	M2. The No actual and forecast demand and energy data, as required by R2, was provided when requested.

## **Reliability Rule I.3 Narrative (R1)**

The NYISO procedures for data collection of actual data and for preparation of the net energy for load, as used for system modeling and reliability studies, are contained in the NYISO Load Forecasting Manual.

Data on the actual and forecast net energy for load by transmission district are reported on the NYISO web site for the Installed Capacity Market.

2022 Documentation is attached as evidence.
