

**NEW YORK STATE RELIABILITY COUNCIL
EC #313 – May 9, 2025**

Status Report: Under Frequency Load Shed WG

- **Update**
 - On April 24 the UFLS WG participated in an excellent discussion with NYISO Planning Staff regarding the NYISO 5-Year Planning Coordinator evaluation of the Transmission Owner Under Frequency Load Shed programs (as currently required by NERC & NPCC criteria).
 - Work is now underway on a draft white paper which will provide a description of current challenges for Transmission Owners going forward with UFLS Programs, current 1-Year and 5-Year evaluations, and recommendation(s) to RRS.
- **Next Meeting UFLS WG**
 - TBD
