

## **New York State Reliability Council – Large Loads Working Group (LLWG)**

### **Working Group Update**

#### **4.10.26 NYSRC EC**

- The LLWG met on March 20 via Zoom.
- The group reviewed the Large Load Reliability Risks document and approved of it. This document was presented as part of the materials at the March EC meeting.
- The LLWG had an extensive discussion on the draft PSC submission from the EC in the large loads proceeding. This feedback is being enveloped into the comments.
- After the meeting, the PSC granted IPPNY's comment extension request, so it is now May 13.
  - The remaining schedule for these comments is as follows:
  - April 17 – circulate a second draft to EC members + LLWG consultants that includes the feedback received thus far
  - April 24 – Amanda De Vito Trinsey to send updated draft to the LLWG consultants for review
  - May 1 – circulate near-final draft to the EC for review and feedback
  - May 8 – discuss comments in EC Meeting closed session
  - May 13 – submit
- Finally, the LLWG has continued informing its members of updates at FERC, NERC, the PSC, and NYISO on large load processes.
